

Orthopedic Centers of Excellence: The Best Trained Orthopedists, The Finest Care

TOTAL JOINT REPLACEMENT CENTER

SPECIALISTS IN HIP, KNEE, SHOULDER AND ANKLE REPLACEMENT SURGERY

The Total Joint Center at Coastal Orthopaedics is a leader in the full range of adult hip, knee, shoulder, and ankle surgery. Our team of fellowship trained orthopedic surgeons includes Directors of Norwalk Hospital's Comprehensive Total Joint Replacement Center.

At this revolutionary Joint Center at the Hospital, our surgeons use advanced multi-modal pain control, including preemptive analgesia and local soft tissue blocks, to significantly reduce post-operative pain and enhance faster recovery for joint replacements as well as varied less invasive surgical approaches and computerized implant technology. These unique advantages send patients home sooner and with a quicker return to function—all this close to home making it more advantageous for patients and their care-givers and family.

Our surgeons sub-specialize in total joint care and replacement surgery. This can take the form of either full or partial replacement surgery, as well as fracture repair due to trauma. Minimally invasive procedures, such as arthroscopic hip, knee or shoulder surgery generally result in quicker return to function and higher satisfaction. In addition, we are especially sensitive in treating older patients who have experienced geriatric trauma or are suffering from osteoarthritis, rheumatoid arthritis, or other inflammatory joint diseases.

Our Physicians: Total Joint Replacement Center

Jeffrey V. DeLuca, M.D. Michael M. Lynch, M.D.
Mark J. Fletcher, M.D. Nicholas V. Polifroni, M.D.
T. Jay Kleeman, M.D.

Not all patients who come to The Total Joint Replacement Center require surgery. We will explore nonsurgical options, including bracing and physical therapy, depending on the patient's symptoms, condition and needs.

Our practice seeks not only excellent results, but a patient experience that exceeds your expectations. At Coastal Orthopaedics' Total Joint Replacement Center, you will find truly personal service. Our treatment approach, with care delivered by our highly trained team of hip, knee, shoulder, and ankle surgeons and rehabilitation therapists, offers an integrated approach to your recovery, in our offices that are close to where you live or work. Our Connecticut location, offers top quality care without a commute, making your experience more convenient and manageable during your recovery period.

Our practice seeks not only excellent results, but a patient experience that exceeds your expectations.
